EMPLOYMENT HISTORY

WEB DEVELOPER/CO-OWNER, RC HELI-ZONE, LLC | OKLAHOMA CITY, OK -- 2008-PRESENT

I helped to build this company from the ground up. I created the company's first online store front and managed inventory on the site's ecommerce backend. I frequently created custom modules and modified existing ecommerce functionality to ensure the site ran smoothly.

FREELANCE WEB DEVELOPER | 2006-PRESENT

From a young age I have been creating web solutions for various clients in many different industries. I hand code standards driven web sites for all types of clients.

IT INTERN, BARRY COUNTY | HASTINGS, MI -- 2005

I was fortunate enough to be employed for my county's government during the summer of 2005. I had recently obtained 3 certifications and was able to expand upon that knowledge by working firsthand with everyday issues. I had to resolve issues in a timely manner to ensure the county government would continue to operate as usual.

TECHNOLOGY ASSISTANT/LIFEGUARD, HASTINGS AREA SCHOOLS | HASTINGS, MI -- 2000-2008

I held two positions within the Hastings School District for quite some time. While they were very different job descriptions, I enjoyed my time there. When I wasn't updating computer labs with new equipment, I was keeping patrons safe at the pool. I balanced out my nerd skills with life saving skills.

SKILLS

I have a broad range of skills in both communication and technology. I am proficient in XHTML, CSS, PHP, MySQL, Javascript, jQuery, Actionscript 3.0, Adobe Flex, and the Adobe CS5 Suite. I hand code semantic, valid, standards driven web sites... and enjoy doing it.
